Dear Sarju,

You can configure email server IP 172.24.11.55 with no authentication requires.

Dear Ranith,

Actually there is no need to create any email account for CEIR since the application will just send notification email to end user only, without receiving any email back. We can just set white list for both TEST servers (172.24.2.56 & 172.24.2.65) to be able to send email our via our email server by using any anonymous ID e.g. ceiradmin@dmc.com.kh.

Best Regards,

Sophal Oum

Subject: Email Account for Email Notification - CEIR system

Hi Rajneesh,

We will be sending Email notification to user post activity is performed on CEIR portal.

We will need email server access along with a email Id like ceiradmin@dmc.com.kh

Request you to provide one. We are currently using a gmail account for same.

Regards

Sarju
