1 Overview

1.1 Scope

The objective of this manual is to help operators block and unblock devices (IMEIs/MEIDs/ESNs), download greylisted and blacklisted numbers, update their internal EIR systems, and report grievances.

1.2 Acronyms & Abbreviations

Acronym	Full Form
CEIR	Central Equipment Identity Register
EIR	Equipment Identity Register
ESN	Electronic Serial Number
IMEI	International Mobile Equipment Identity
MEID	Mobile Equipment Identifier
PDA	Personal Digital Assistant
TAC	Type Allocation Code
TRC	Telecom Regulator of Cambodia

1.3 Conventions

Information	Convention
UI elements (such as names of windows, buttons, and fields)	Bold
References (such as names of files, sections, paths, and parameters)	<i>Italics</i>

Information	Convention
*	Indicates a mandatory field or column

2 Operations

2.1 Application Overview

The CEIR (Central Equipment Identity Register) Operator Portal application is used to block devices that violate the operator contract agreement. The devices that are blocked can be unblocked as well using the application. Operators can raise grievances to the CEIR administrator whenever there is any problem.

Operators can use the application to perform the following tasks:

- Block devices
- Unblock devices
- Download greylists for monitoring devices
- Download blacklists for blocking devices
- Report grievances

2.2 Logging into the Application

Before login, operators need to register in the application. Employee or operator personnel register on the CEIR portal on behalf of an operator.

To register:

1. Enter the DMC home portal page URL in the browser address bar. This opens the following page.

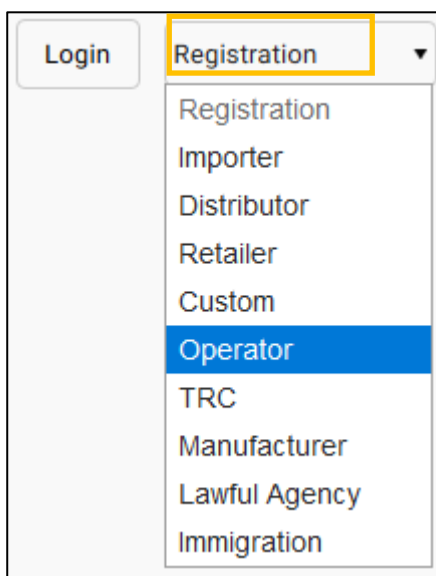

Figure 1: DMC Home Page

2. Select **Operator** from the **Registration** list.

The **Operator Registration** page appears. The operator needs to enter the following information.

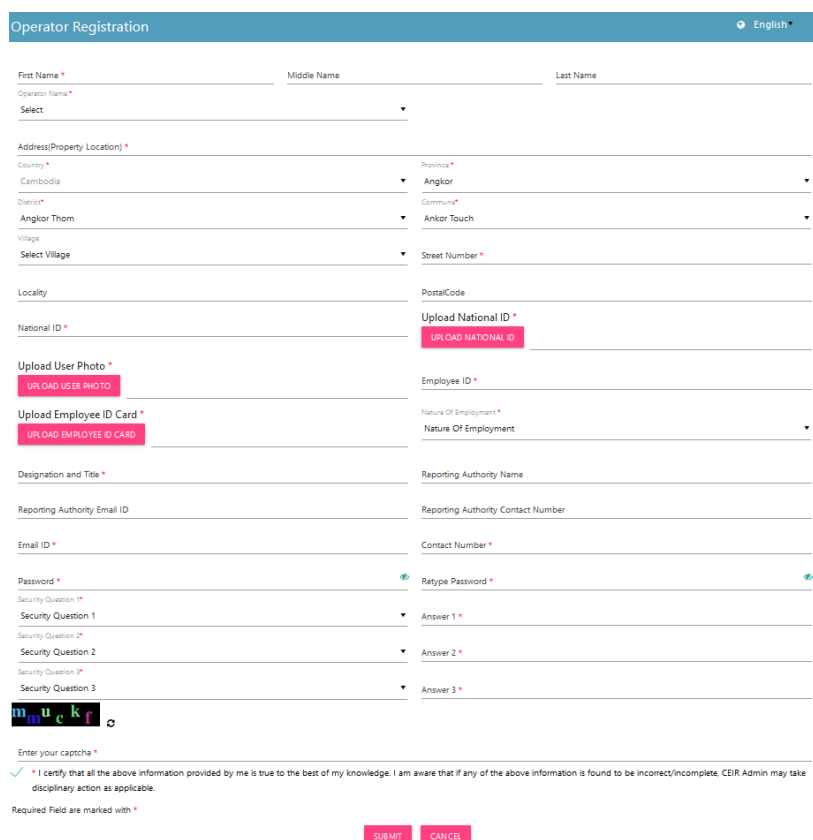

Figure 2: Operator Registration

3. ***First Name:** Enter the first name.
4. **Middle Name:** Enter the middle name (if any).

5. ***Last Name:** Enter the last name.
6. ***Type:** Select the operator type:
 - Metfone
 - Smart
 - Seatel
 - Cellcard
7. **Address:** Enter the operator's address:
 - Street Number
 - Village
 - Locality
 - District
 - Commune
 - Province
 - Country
8. ***National ID:** Enter the national ID of operator personnel.
9. ***Upload National ID:** Upload the image of the original national ID of operator personnel. This can be a pdf or image (.jpeg) of size not more than 2 MB.
10. **Upload Photo:** Upload the photograph of the operator personnel. The photograph can be a pdf or image (.jpeg) of size not more than 2 MB.
11. **Employee ID:** Enter the employee ID of the operator.
12. **Upload ID Card:** Upload the image of the ID card. The photograph can be a pdf or image (.jpeg) of size not more than 2 MB.
13. **Nature of Employment:** Select the type of employment of the operator personnel:
 - Permanent
 - Temporary
 - Contract
14. **Designation and Title:** Enter the designation of the operator's personnel.
15. **Reporting Authority Name:** Enter the name of the officer to whom the operator's personnel reports to.

16. **Reporting Authority Email ID:** Enter the mail ID of the officer to whom the operator's personnel reports to.
17. **Reporting Authority Contact Number:** Enter the contact number of the officer to whom the operator personnel reports to.
18. **Email:** Enter the mail ID of operator's personnel. This mail ID would be used for communication with the operator.
19. ***Contact Number:** Enter the mobile number of operator's personnel. Operators receive notifications at this mobile number.
20. ***Password:** Enter a login password. This is the password that would be used to log into the CEIR Operator Portal application.
21. ***Confirm Password:** Re-enter the password for confirmation.
22. ***Select three security questions and enter an answer for each question.** This is required by the system when the operator forgets the login password. In such a situation, the system requires some type of identification to authenticate the operator. The security questions are used to identify and authenticate the operator.
23. ***Enter the captcha shown on the page.** This is required to prove to the system that the operator is not a robot.
24. ***Select the declaration check box.**
25. Click **SUBMIT**.

An OTP is sent to the operator's mail ID and contact number.

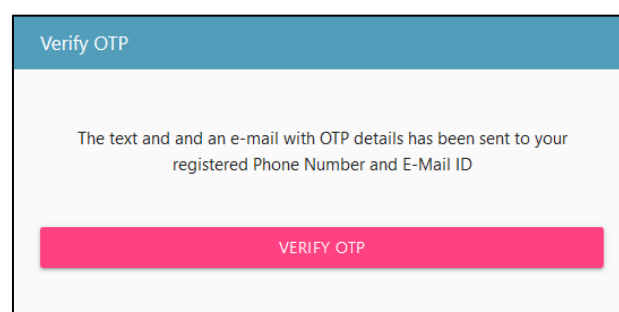

Figure 3: Verify OTP

The operator is prompted to enter both the OTPs in the page for verification.

Figure 4: Enter OTP

If the two OTPs match, the following message appears. If the OTPs do not match, an error message is displayed. In case the OTP is not received, click **Resend OTP** to request the CEIR system to resend the OTP. The two OTPs are resent, one to the contact number and the other to the mail account.

After the OTPs are verified successfully, the registration request is sent for approval to the CEIR administrator. The approval turnaround time is 2-3 days. After approval from the CEIR administrator, an e-mail containing a registration ID is sent to the operator's personnel mail account. The registration ID is a unique automatically generated ID. The ID is the login username for access to the CEIR Operator Portal application. This concludes the registration process.

To start using the application, log into the application.

To login:

1. Open the browser and enter the DMC home portal URL in the address bar. The login screen appears.

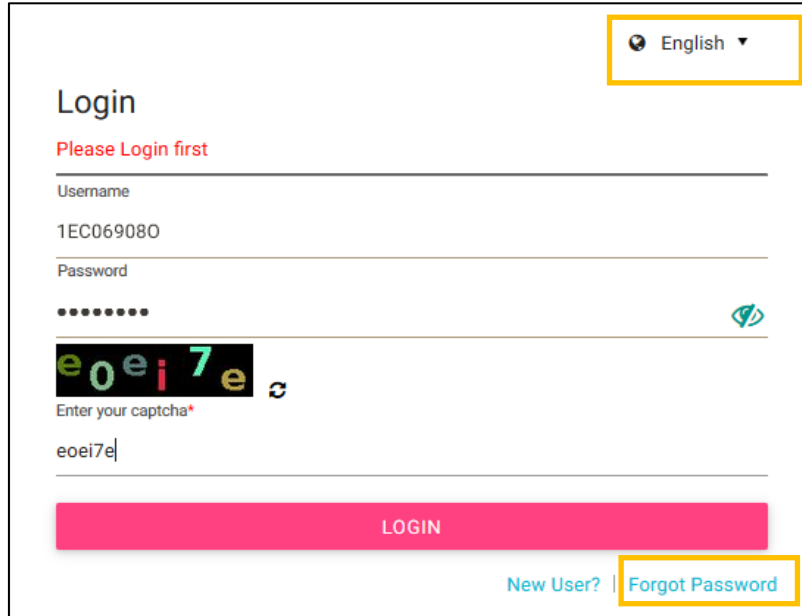

Figure 5: Login

On the top right corner of the login screen is the **Language** option. The application supports two languages: **English** and **Khmer**. On selecting a given language, all the field and column labels in the application appear in the selected language. All user inputs are, however, in English.

2. Next, enter the assigned login username and password.

Username is the registration ID that is sent on mail to the operator after successful registration in the system. Username is a unique ID that is automatically generated by the system. The login password is the password that the operator enters in the registration page. Refer to during *Figure 2: Operator Registration*.

3. Enter the captcha.
4. Click **LOGIN**.

If the login and password are incorrect or the captcha is not correct, an error message appears, and the operator is prompted to re-enter the login details.

On entering correct information, the application Home page appears.

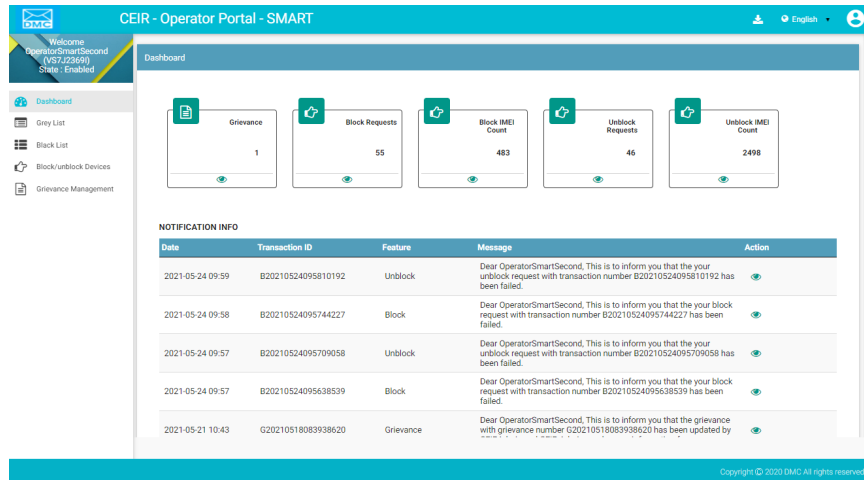

Figure 6: Home Page

If the operator forgets the assigned password, click the **Forgot Password** link on the **Login** page. The **Forgot Password** page appears.

Figure 7: Forgot Password

1. Enter the login username.
2. Select a security question from the list. Select any one of the security questions that were selected during registration.
3. Enter the answer to the selected security question. This should match the answer given at the time of registration.
4. Click **SUBMIT**.

The **Set New Password** page appears.

Figure 8: Set New Password

5. Enter a new password. Click  to see the password characters being entered. Click on it again to hide the password characters. This works like a toggle key.
6. Re-enter the password.
7. Click **Save**.

2.3 Application User Interface

On logging into the application successfully, the CEIR Operator Portal Home page appears.

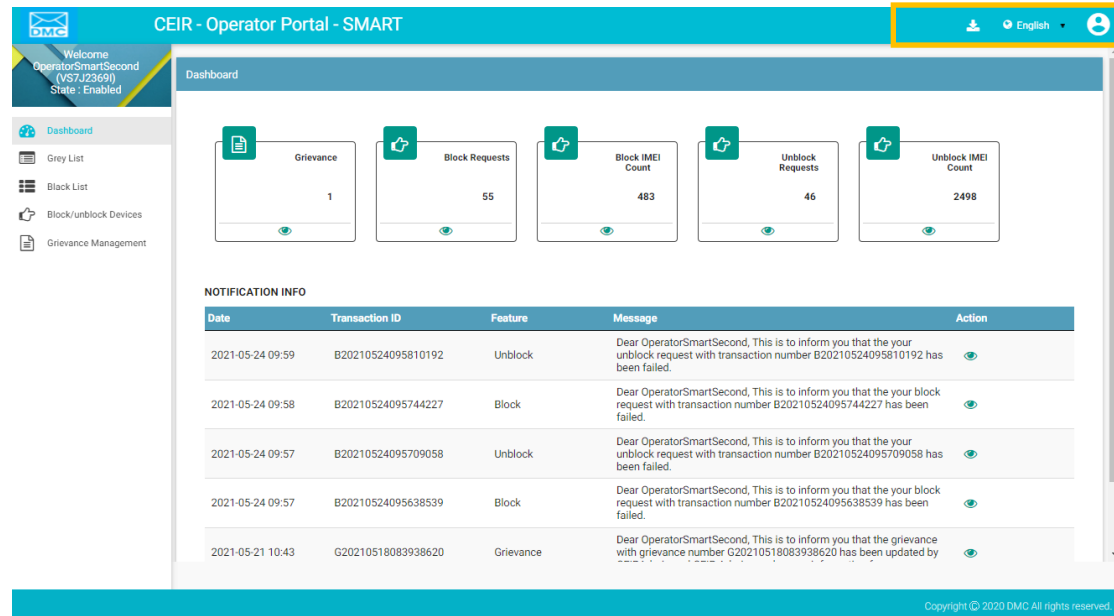

Figure 9: Home Page

The Home page has all the feature menus on the left panel.

The center of the page is the Dashboard.

The top right corner of the screen displays the following menu options:

- **Download** : Click to download this user manual.
- **English** : Select **English** or **Khmer**. All the field and column labels appear in the selected language. User inputs are, however, in English.

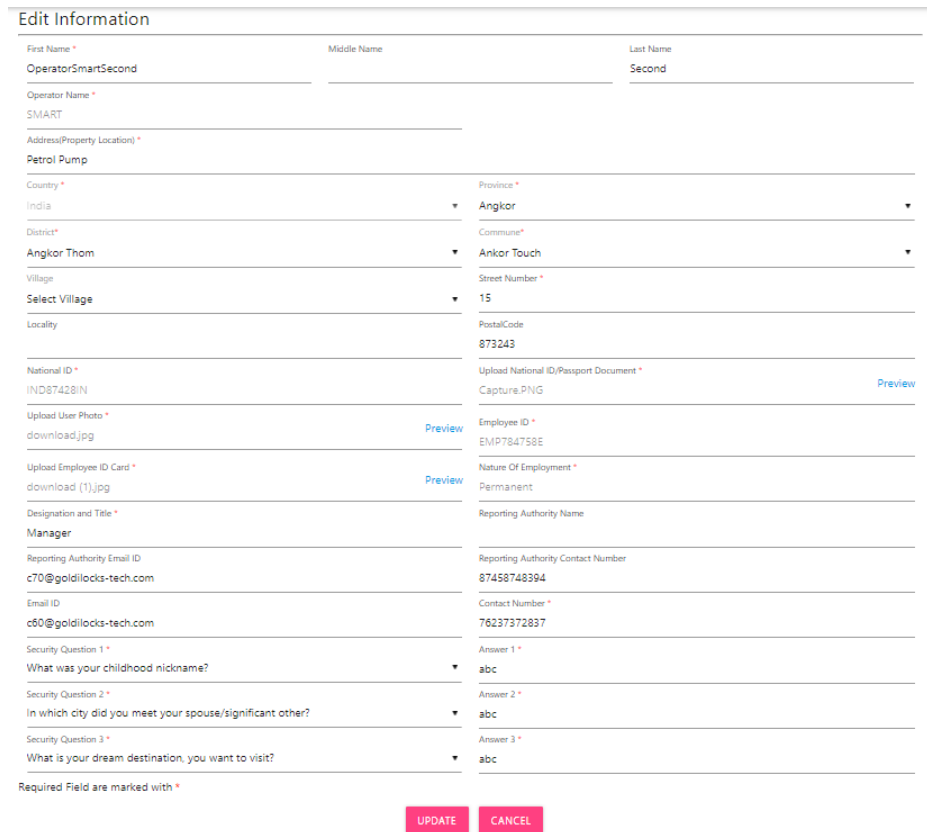

-  (**User profile**): Click on it to see the following menu:

-  **(Edit Info)**: Click on it to modify the registered information. The **Edit Information** page opens.

The screenshot shows the 'Edit Information' form with various fields for user details, location, and security questions. Fields are marked with an asterisk (*) to indicate they are required. At the bottom, there are 'UPDATE' and 'CANCEL' buttons.

Required Field are marked with *

UPDATE CANCEL

Figure 10: Edit Information

1. Make the required changes.
 2. Click **Submit** to save the changes.
-  **(Change Password)**: Click on it change the login password.

The screenshot shows the 'Change Password' form with three input fields: Old Password, New Password, and Confirm Password. Each field has a password strength indicator (green eye icon) and a confirmation icon (green checkmark). At the bottom, there are 'SUBMIT' and 'CANCEL' buttons.

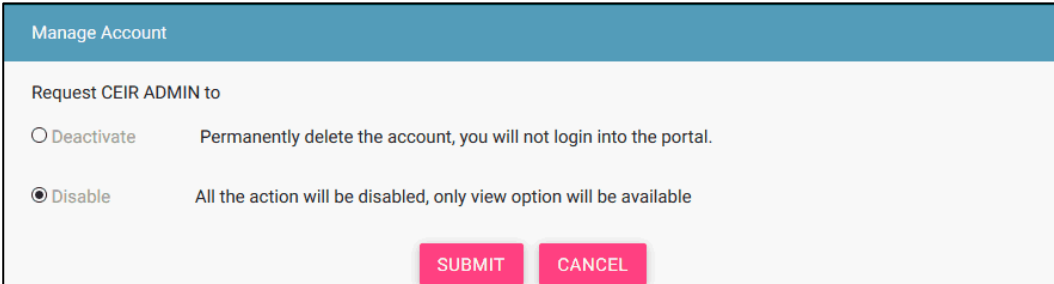

Change Password	
Old Password	••••••••
New Password	••••••••
Confirm Password	••••••••

SUBMIT CANCEL

Figure 11: Change Password

1. **Old Password:** Enter the existing password. Click  to see the password characters being entered. Click on it again to hide the password characters. This works like a toggle key.
 2. **New Password:** Enter a new password.
 3. **Confirm Password:** Re-enter the new password to confirm the password.
 4. Click **SUBMIT**.
-  **(Enable/Disable Account):** Operator can deactivate their account or disable/enable their account.
 - Deactivating an account means deleting the login account. After the operator's account is deleted, he/she can raise a grievance to reactivate it when required. The grievance is sent to the CEIR administrator who reactivates the account. After reactivation, the operator can use the same login username and password to log into the application.
 - When the account is disabled, the operator can only view information and not add or modify information in the application. After the account is disabled, they can enable it using the same menu.

Manage Account	
Request CEIR ADMIN to	
<input type="radio"/> Deactivate	Permanently delete the account, you will not login into the portal.
<input checked="" type="radio"/> Disable	All the action will be disabled, only view option will be available
<div>SUBMIT CANCEL</div>	

Figure 12: Manage Account

1. Select **Deactivate** or **Disable**.
2. Click **SUBMIT**.

2.4 Dashboard

The Dashboard provides a quick display and access to the following information:

- Block/Unblock Requests
- Block/Unblock Device Count

- Grievances

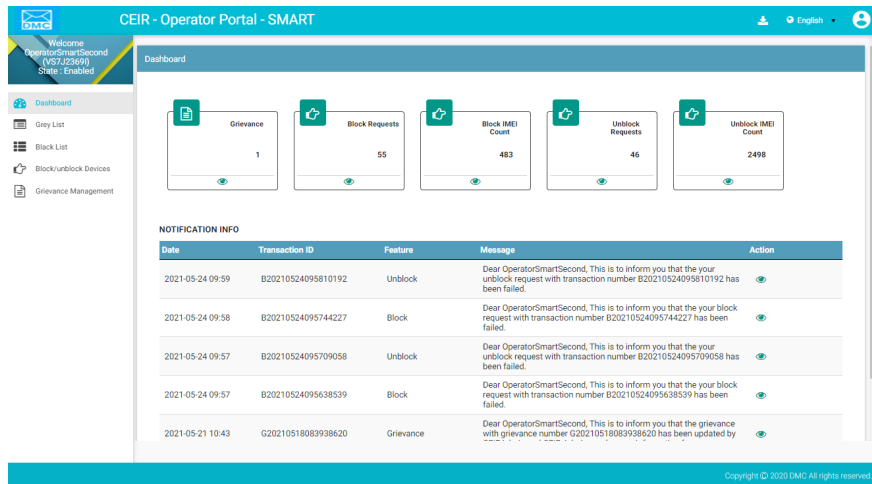

Figure 13: Home Page

Block/Unblock Requests

The box displays the total number of block and unblock requests.

Click  (**View**) to go to the **Block/Unblock Devices** dashboard. Refer to *Block/Unblock Devices* for more information.

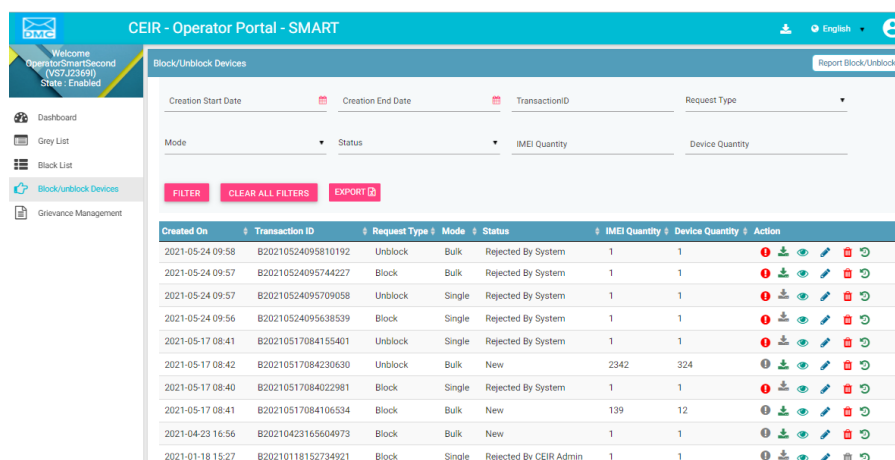

Figure 14: Block/Unblock Devices

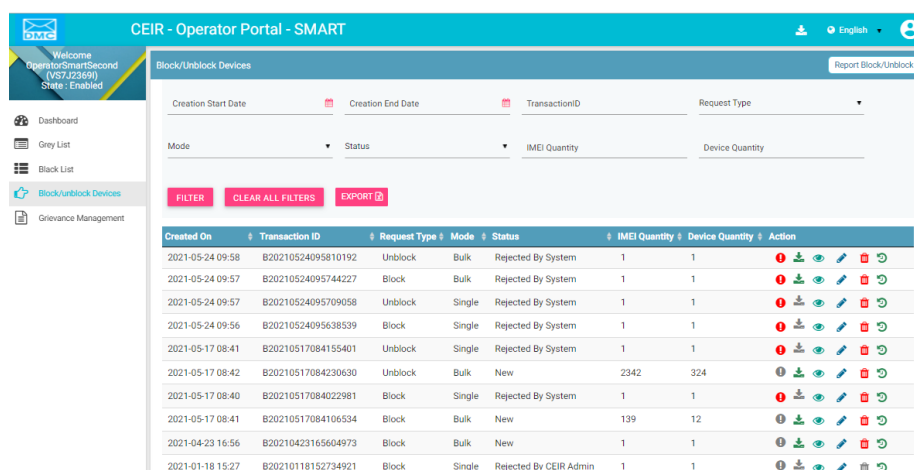

Block/Unblock Device Count

The box displays the total number of devices (IMEIs/MEIDs/ESNs) for which block and unblock requests have been registered.

Click  (**View**) to go to the **Block/Unblock Devices** dashboard. Refer to *Block/Unblock Devices* for more information.

The screenshot shows the CEIR Operator Portal - SMART interface. The left sidebar contains navigation links: Dashboard, Grey List, Black List, Block/unblock Devices (highlighted), and Grievance Management. The main content area is titled 'Block/Unblock Devices' and includes a 'Report Block/Unblock' button. Below this are filter fields for Creation Start Date, Creation End Date, TransactionID, Request Type, Mode, Status, IMEI Quantity, and Device Quantity. There are buttons for FILTER, CLEAR ALL FILTERS, and EXPORT. The main table displays a list of device requests with columns: Created On, Transaction ID, Request Type, Mode, Status, IMEI Quantity, Device Quantity, and Action. The table contains 12 rows of data.

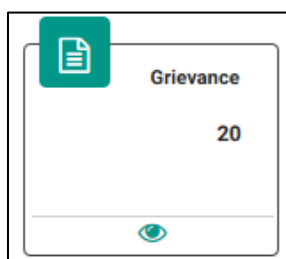

Created On	Transaction ID	Request Type	Mode	Status	IMEI Quantity	Device Quantity	Action
2021-05-24 09:58	B20210524095810192	Unblock	Bulk	Rejected By System	1	1

Figure 15: Block/Unblock Devices

Grievance

This box displays the total number of grievances raised.

Click  (**View**) to go to the *Grievance Management* dashboard.

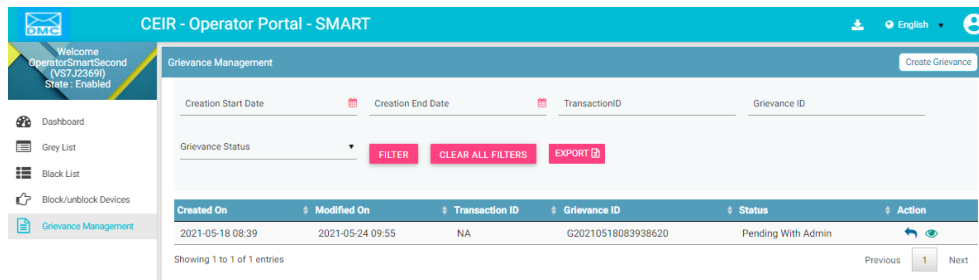

Figure 16: Grievance Management

Notification Information

This section displays the most recent notifications. System Admin can configure the number of notifications to be displayed on user dashboard.

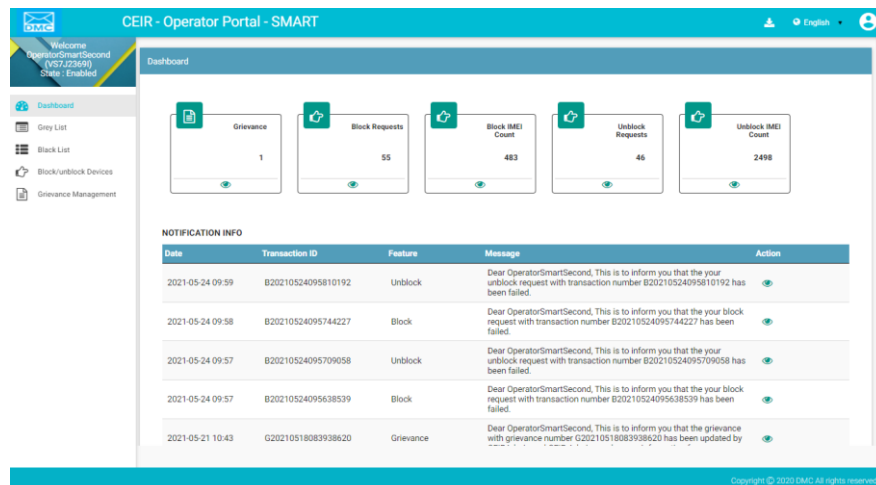

Figure 17: Home Page

Notifications are of two types.

1. Notifications that provide only information. For example, a notification informing the operator about the account status is an information only notification because it requires no action. The **View** icon (👁️) is disabled in such notifications.
2. Notifications that require some action by the operator. For example, a notification about the block device rejection by the CEIR administrator requires the operator to take some action. The **View** icon (👁️) is enabled in such notifications. Click 👁️ (**View**) to access the relevant request details.

The notification panel has the following columns:

- **Date:** Date of sending the notification

- **Transaction ID:** Transaction ID for which the notification is sent. If the notification is related to the operator account, the login username is shown instead of any transaction ID.
- **Feature:** This is the name of the feature for which the notification is sent. For example, if the notification is for a grievance, the feature name **Grievance** is shown.
- **Message:** This is the message of the notification. An example is shown below.
- **Action:** This shows the **View** icon. It is activated  if the operator can click on it else it is disabled .

2.5 Block/Unblock Devices

Operators block devices (IMEI/MEID/ESN) when there is a contract violation. The operator can block or unblock a single device at a time or multiple devices at a time.

Whenever a device is blocked, the IMEI/MEID/ESN of the device is kept in a greylist. This is done for a given duration after which the device IMEI/MEID/ESN is moved to the blacklist. Moving the information to the blacklist indicates permanent blocking.

2.5.1 Single Device Blocking/Unblocking

To block or unblock a single device:

1. Select **Block/Unblock Devices** in the left panel of the Home page.

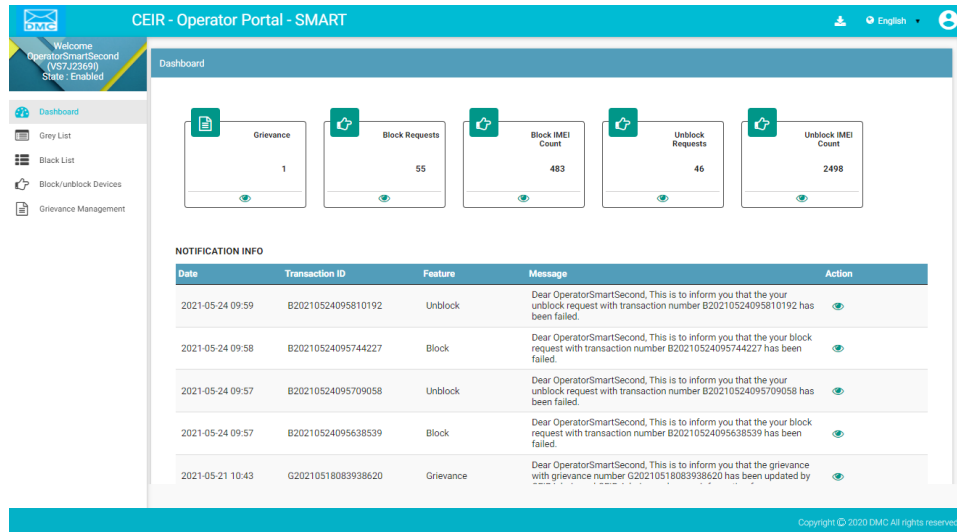

Figure 18: Home Page

The **Block/Unblock Devices** dashboard appears.

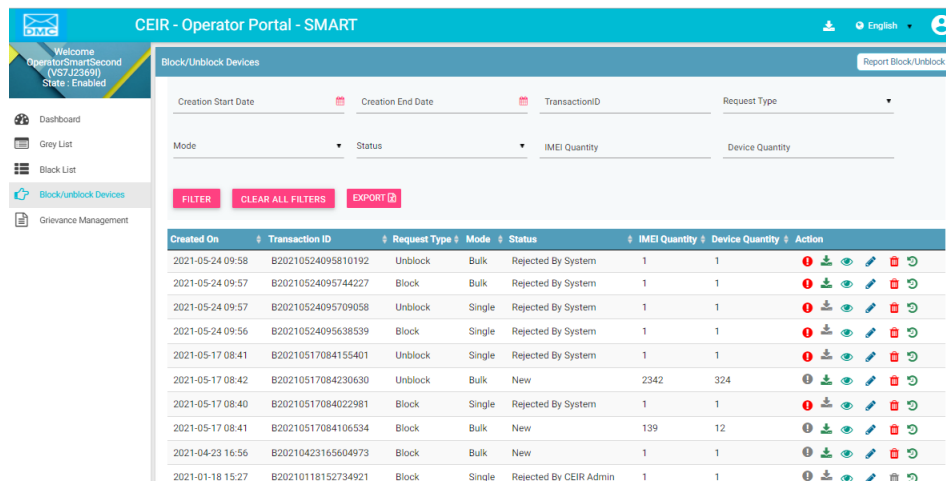

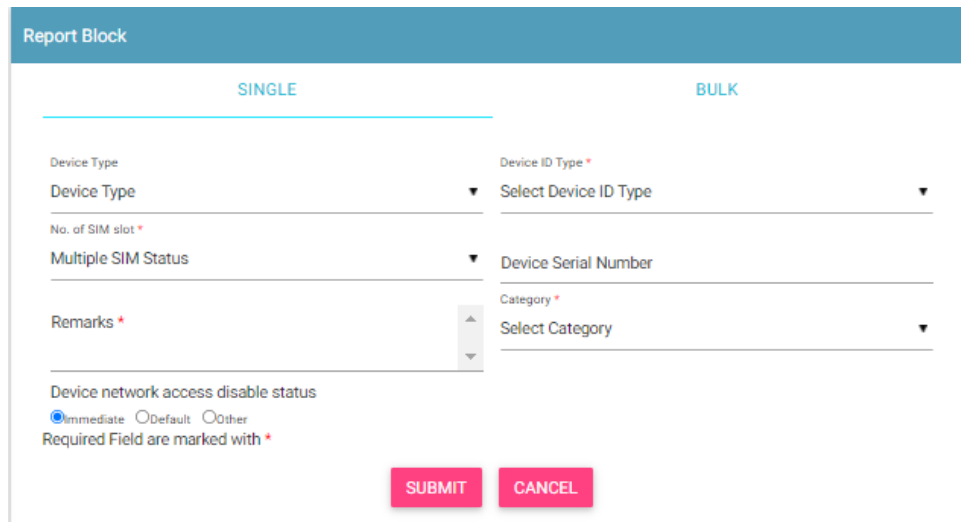

Figure 19: Block/Unblock Devices

- Click **Report Block/Unblock** (seen on the top right corner of the menu bar).

- Select **Block** or **Unblock** as per the action to be taken.

Report Block

SUBMIT **CANCEL**

Figure 20: Report Block

The screen has two sections: **Single** and **Bulk**.

By default, the **Single** section appears.

4. Enter the following information:

- ***Device Type:** Select the type of device to be blocked or unblocked.
- **Device ID Type:** Select the type of ID to be entered for the device that is being blocked or unblocked:
 - IMEI
- **No. of SIM slots:** Number of slots the device supports (1-4)
- **Device Serial Number:** Enter the device serial number.
- ***Remarks:** Enter details about device being blocked or unblocked.
- ***Category:** Select the reason for blocking the device:
 - Contract Violation
 - Other
- **Blocking Type:** Select the blocking mode. This is applicable only to blocking:
 - Immediate: The device is instantly blacklisted.
 - Default: The device is sent to the blacklist after a given duration. The duration is configurable by the CEIR administrator.
 - Later: The device is sent to the blacklist at the specified date. Select the date using the calendar .

- **IMEI:** Enter the value of the IMEIs of the device to be blocked.

5. Click **Submit**.

A unique transaction ID is generated, and the blocking or unblocking request is processed internally. The request can be seen on top of the dashboard.

For each request, the dashboard displays the following information:

Column	Description
Date	Date of registering the request to block or unlock the device.
Transaction ID	Transaction ID assigned to the request.
Request Type	The request type can be block or unblock depending on the action taken.
Mode	This indicates whether the transaction is for a single device (Single) or for bulk devices (Bulk).
Status	<ul style="list-style-type: none">• The request goes through the following status modes:<ul style="list-style-type: none">○ New: When a request is raised, the status is New.○ Processing: The request is verified internally.○ Rejected by System: If the request has an error, an error file is generated. The error file can be downloaded. The error could be in the file format, size, policy violation or request specifications.○ Pending Approval from CEIR Admin: If the request is successfully verified by the system, the request is shared with the CEIR administrator for review.

Column	Description
	<ul style="list-style-type: none">○ Rejected by CEIR Admin: The CEIR administrator reviews the details and rejects the request if there is a problem. The operator can view the error file and fix the errors in the request.○ Approved by CEIR Admin: When the CEIR administrator approves the request, the status changes to Approved by CEIR Admin.○ Withdrawn by CEIR Admin: When the CEIR administrator withdraws the request, the status changes to Withdrawn by CEIR Admin. For example, this could be done when the operator has wrongly marked a device as stolen, which has been rightly claimed by another user.○ Withdrawn by User: The operator can withdraw the request only when the status is New or Rejected by System.
Quantity	If the request is for a bulk device request, this refers to the number of IMEIs in the .csv file else it refers to the IMEIs in the single device being blocked or unblocked.
Action	<p>This displays different actions that can be performed on the request.</p> <ul style="list-style-type: none">• Error : This is enabled when there is an error file generated because of any problem with the file format or policy violation. Click on the icon to download the error file.• Download : This is used to take a dump of the .csv file that is uploaded to the system. This is enabled only for bulk requests. Click on it download the file.

Column	Description
	<ul style="list-style-type: none">• View : This is used to view the request. Click on it view the request details.• Edit : This is used to modify the request. This is allowed only when the status is New or Rejected by System or Rejected by CEIR Admin. Click on it to modify the request details.• Delete : This is used to delete the request. This is allowed only when the request status is New or Rejected by System. Click on it to delete the request.• History : This is used to view the history of the request.

2.5.2 Bulk Device Blocking/Unblocking

Instead of blocking or unblocking one device at a time, operators can block or unblock multiple devices at a time. This saves time and speeds up the processing.

To block or unblock multiple devices, operators are required to enter the device information in a **.csv** file and upload it to the system. The format of the file and a sample are shown later in this section.

To block or unblock multiple devices:

1. Select **Block/Unblock Devices** in the left panel of the Home page.

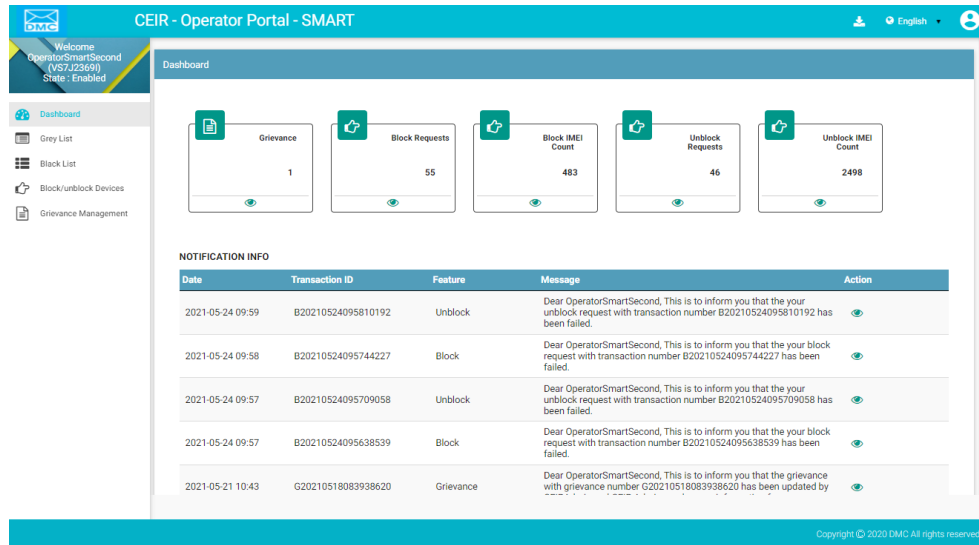

Figure 21: Report Block

The **Block/Unblock Devices** dashboard appears.

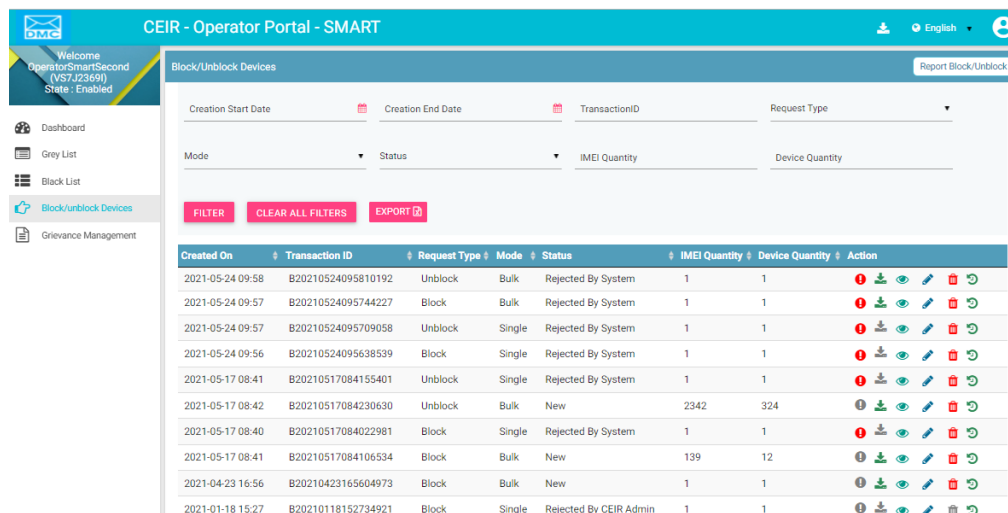

Figure 22: Block/Unblock Devices

2. Click **Report Block/Unblock**.

3. Select **Block** or **Unblock**.

4. On selecting **Block**, the **Report Block** page appears. Select **Bulk**.

Figure 23: Report Block

Enter the following information:

- ***Category:** Select the reason for blocking or unblocking devices:
 - Contract Violation
 - Other
- ***Remarks:** Enter information about the bulk blocking or unblocking.
- ***IMEI Quantity:** The number of IMEIs to be blocked or unblocked.
- ***Device Quantity:** The number of Devices to be blocked or unblocked.
- ***Upload Bulk devices:** Enter the IMEI details in a file. This is a **.csv** file with defined column names. You need to enter device information in this file. First, download the file format, if required.

Click **Download Sample Format** to save the format of the **.csv** file in which to enter the details of the devices to be blocked or unblocked.

	A	B	C	D	E	F	G
1	DeviceType	DeviceIdType	MultipleSIMStatus	S/NofDevice	IMEI	DeviceLaunchdate	DeviceStatus
2							
3							

Enter the details under each column for each device to be blocked. The file size should not exceed 2 MB. The file name should not exceed 30 characters.

The file has the following columns:

- **Device type:** The device can be a handheld phone, mobile phone, feature phone, smart phone, Vehicle, Portable (include PDA), Module, Dongle, WLAN router, modem, connected computer, tablet, e- Book.
- ***Device ID type:** Type can be IMEI.

- **Multiple SIM Status:** No of multiple SIM slots the device supports (1-4)
- **S/N of Device:** Device serial number
- ***IMEI:** Value of IMEI
- **Device launch date:** Launch date or manufacturing date of the device (in the format, DDMMYYYY).
- **Device status:** Whether the device is new or used (New/Used)

	A	B	C	D	E	F	G
1	DEVICETYPE	DeviceIdType	MultipleSIMStatus	S/NofDevice	IMEI	DeviceLaunchdate	DeviceStatus
2	Handheld	IMEI	4	34562	999339988776608	22-05-2020	New
3	Handheld	IMEI	4	34562	999339988776609	22-05-2020	New
4	Handheld	IMEI	1	98126	999339988776610	22-05-2020	New
5	Handheld	IMEI	4	34562	999339988776611	22-05-2020	New
6	Handheld	IMEI	1	34523	999339988776612	22-05-2020	New
7	Handheld	IMEI	4	34562	999339988776613	22-05-2020	New
8	Handheld	IMEI	1	98126	999339988776614	22-05-2020	New
9	Handheld	IMEI	1	34523	999339988776615	22-05-2020	New
10	Handheld	IMEI	1	98126	999339988776616	22-05-2020	New

- Save the file and click **File** to upload the saved file to the system.
- Click **Submit**.

The request is saved, and a unique transaction ID is generated and assigned to the request. This transaction ID is used to track and identify the request.

The request appears on top of the dashboard.

2.6 Edit Block/Unblock Device Requests

Operators can change the block/unblock request details registered in the system. This can be done only when the request status is New or Rejected by System.

To modify request details:

1. Click **Edit** (✎) against the request to be modified.

Block/Unblock Devices								Report Block/Unblock
Creation Start Date	Creation End Date	TransactionID	Request Type

Figure 24: Block/Unblock Devices

The **Edit** page appears. The page has the same fields for block and unblock single devices.

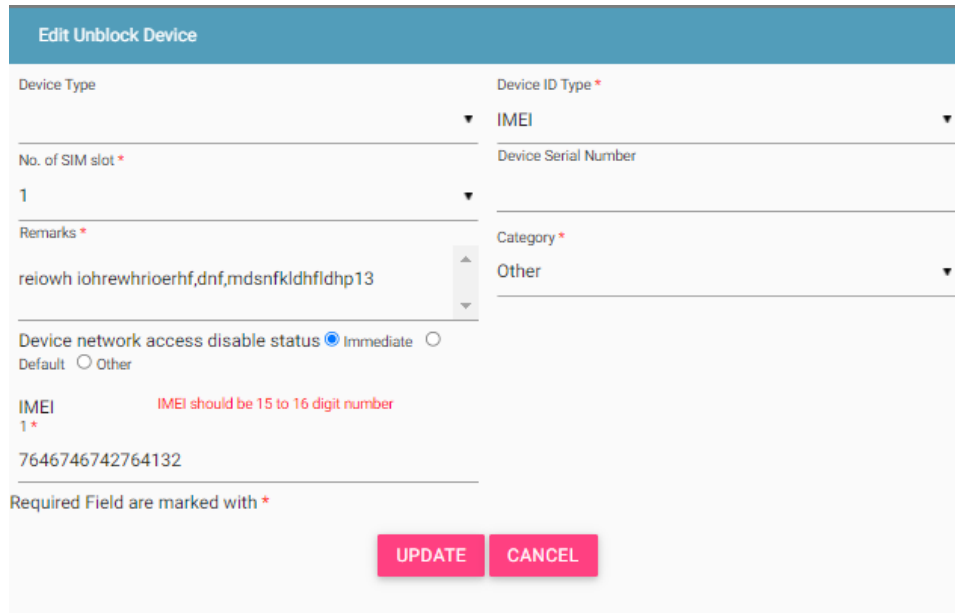

Figure 25: Edit Block Device (Single Device)

The **Edit** page is different for bulk devices (block and unblock).

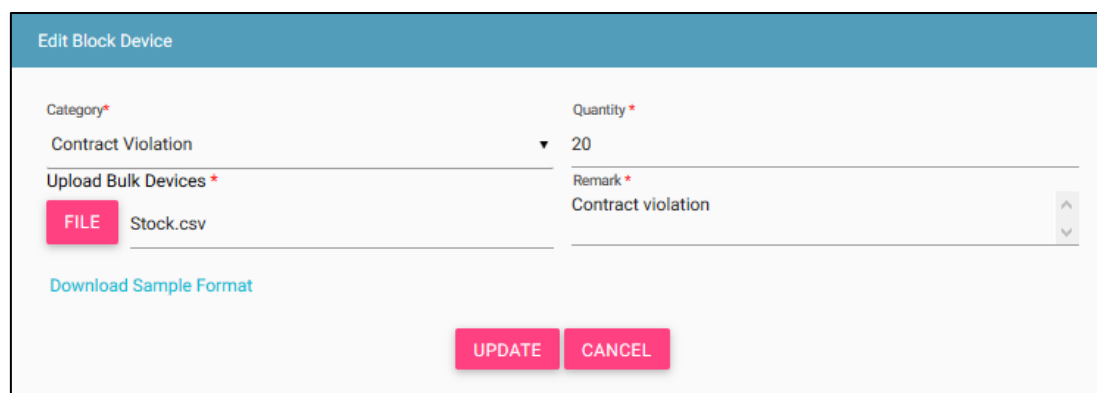

Figure 26: Edit Block Device (Bulk Device)

2. Make the required changes
3. Click **UPDATE**.

The status of the request changes to **New** and is submitted for reprocessing.

2.7 Filter Block/Unblock Device Requests

Operators can view selective block/unblock device requests after specifying the required filters. For example, operators can view requests that are pending approval from the CEIR administrator.

To filter block/unblock device requests:

Created On	Transaction ID	Request Type	Mode	Status	IMEI Quantity	Device Quantity	Action
2021-05-24 09:58	B20210524095810192	Unblock	Bulk	Rejected By System	1	1	[Icons]
2021-05-24 09:57	B20210524095744227	Block	Bulk	Rejected By System	1	1	[Icons]
2021-05-24 09:57	B20210524095709058	Unblock	Single	Rejected By System	1	1	[Icons]
2021-05-24 09:56	B20210524095638539	Block	Single	Rejected By System	1	1	[Icons]
2021-05-17 08:41	B20210517084155401	Unblock	Single	Rejected By System	1	1	[Icons]

Figure 27: Block/unblock Devices

1. Enter data in one or more of the listed fields:
 - **Start Date** and **End Date**: This refers to the registering block/unblock device requests in the system.
 - **Transaction ID**: Each request is assigned a unique transaction ID. Operators can view a specific request by entering its transaction ID.
 - **Request Type**: This refers to the type of request: Block or Unblock.
 - **Mode**: This refers to whether the request is for a single device or bulk devices: Single or Bulk.
2. Click **FILTER**.

The requests that match the filter values are shown in the dashboard.

Created On	Transaction ID	Request Type	Mode	Status	IMEI Quantity	Device Quantity	Action
2021-05-24 09:58	B20210524095810192	Unblock	Bulk	Rejected By System	1	1	[Icons]
2021-05-24 09:57	B20210524095744227	Block	Bulk	Rejected By System	1	1	[Icons]
2021-05-24 09:57	B20210524095709058	Unblock	Single	Rejected By System	1	1	[Icons]
2021-05-24 09:56	B20210524095638539	Block	Single	Rejected By System	1	1	[Icons]
2021-05-17 08:41	B20210517084155401	Unblock	Single	Rejected By System	1	1	[Icons]

Figure 28: Filtered Device Block/Unblock Requests

The user can clear all filters using the “Clear All Filters” button. This will reset all the filter values applied on the page and the data table is refreshed.

2.8 Sorting Block/Unblock requests

By default, all records displayed are sorted based on modified date. User can sort the records as per his convenience by clicking the arrow button on header in the table displayed.

On first click, the records are sorted in ascending order. When user clicks the arrow buttons again, records are sorted in descending order.

Created On	Transaction ID	Request Type	Mode	Status	IMEI Quantity	Device Quantity	Action
2021-05-24 09:58	B20210524095810192	Unblock	Bulk	Rejected By System	1	1	[Icons]

Figure 29: Sort Block/Unblock Requests

2.9 Export Block/Unblock Device Requests

Operators can download all the uploaded requests in a .csv file. This is done using an export utility.

To export the uploaded requests:

1. On the **Block/Unblock Devices** page, click **Export**.

Date	Transaction ID	Request Type	Mode	Status	Quantity	Action
2020-03-11 06:10	B20200311061021786	Block	Single	New		[Icons]

Figure 32: Exported Block/Unblock Devices

Filtered data can also be exported. To do this, filter specific data by defining filter values. Refer to *Filter Block/Unblock Device Requests* for information and then use the export feature to export the filtered data.

2.10 Greylist

When a request to block a device is registered in the system, the IMEI of the device is moved to the greylist file. The device status is maintained in the greylist file for a given duration before it is moved to the blacklist file. The duration for which a blocked device is kept in the greylist file depends on the system configuration and type of blocking (Instant, Default, Later).

To view the greylist file:

1. Select **Grey List** in the left panel of the home page.

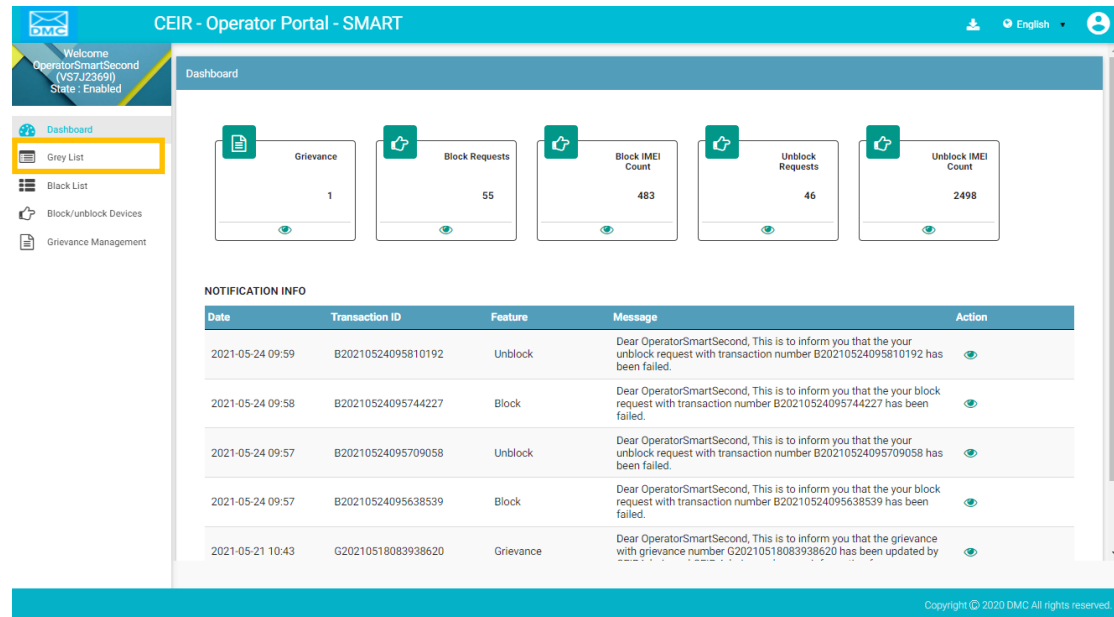

Figure 33: Home Page

The **Grey List** page appears.

Grey List				
Creation Start Date	Creation End Date	File Name	File Type

8	12-06-2021 00:30	GreyList_Incremental_20210611.csv	Incremental

Figure 40: Exported Greylists

Greylist files can be filtered and then exported. To filter greylist files, refer to *Filter Grey Lists* for information and then export the filtered data.

2.14 Blacklist

Device IMEIs/MEIDs/ESNs are moved from the greylist to the blacklist. The duration for which a device is kept in the greylist depends on the system configuration and the type of blocking selected at the time of blocking the device (Immediate, Default, Later).

To view blacklist files:

1. Select **Black List** in the left panel of the Home page.

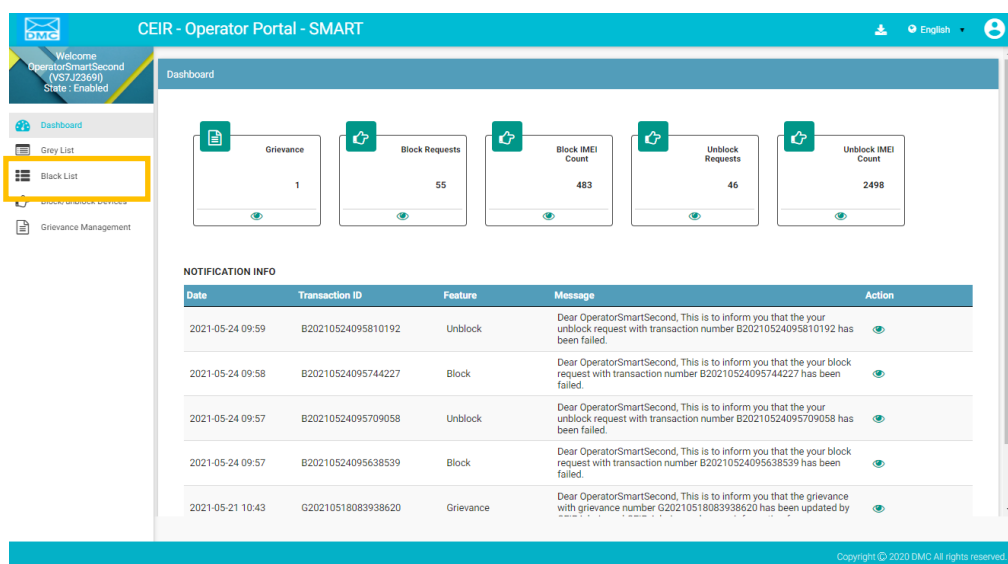

Figure 41: Home Page

2. The **Black List** page appears. The page shows the blacklist files generated on different dates.

Created On	File Name	File Type	Action

2021-06-12 00:30:34	BlackList_Full_20210611.csv	Full	
2021-06-11 00:30:38	BlackList_Full_20210610.csv	Full	
2021-06-10 00:30:39	BlackList_Full_20210609.csv	Full	

Figure 44: Filtered Blacklists

The user can clear all filters using the “**Clear All Filters**” button. This will reset all the filter values applied on the page and the data table is refreshed.

2.16 Sorting Blacklists

By default, all records displayed are sorted based on modified date. User can sort the records as per his convenience by clicking the arrow button on header in the table displayed.

On first click, the records are sorted in ascending order. When user clicks the arrow buttons again, records are sorted in descending order.

The screenshot shows the 'Black List' interface with the 'File Name' header highlighted by a yellow box. The table below displays the records.

Created On	File Name	File Type	Action
2020-07-30 21:13:18	BlackList_Full_20200729.csv	Full	
2020-07-30 21:13:18	BlackList_Incremental_20200729.csv	Incremental

2020-08-02 00:23:49	BlackList_Incremental_20200801.csv	Incremental	

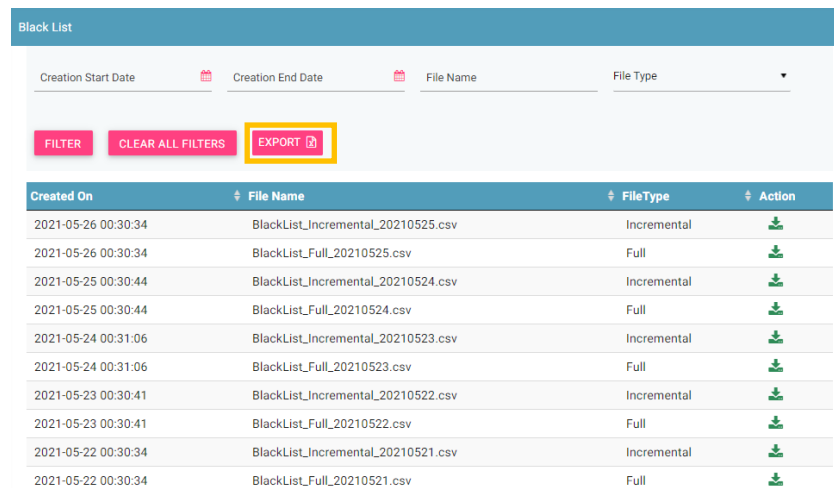

Figure 45: Sort Blacklists

2.17 Export Blacklist

The blacklist files can be downloaded in a .csv file. This is done using an export utility.

To export blacklist files:

1. Click **Export** (seen on the top right corner of the **Black List** page).

The screenshot shows the 'Black List' interface. At the top, there are filters for 'Creation Start Date', 'Creation End Date', 'File Name', and 'File Type'. Below these filters are three buttons: 'FILTER', 'CLEAR ALL FILTERS', and 'EXPORT' (which is highlighted with a yellow box). Below the buttons is a table with the following columns: 'Created On', 'File Name', 'FileType', and 'Action'.

Created On	File Name	FileType	Action
2021-05-26 00:30:34	BlackList_Incremental_20210525.csv	Incremental	
2021-05-26 00:30:34	BlackList_Full_20210525.csv	Full

Figure 48: Exported Blacklists

Instead of exporting all the blacklist files, operators can export filtered blacklist files. First, filter the blacklist data based on specific filters (refer to *Filter Blacklists*) and then export the filtered blacklist files using the export utility.

2.18 Grievance Management

Operators can register complaints or grievances when there is a problem in the portal. For example, there could be situations when the blocking/unblocking, grey list, or black list features are not functional.

When an operator raises a grievance, the grievance goes through the following stages:

1. A notification is sent to the CEIR administrator. The notification appears on the CEIR administrator portal. A mail is also sent to the registered mail of the CEIR administrator.
2. The CEIR administrator responds to the grievance. A response notification is sent to the operator portal, and the operator's registered mail ID.
3. Steps 1 to 2 are repeated until the grievance is closed. The administrator closes the grievance.

There are situations when the grievance is automatically closed. A grievance is automatically closed when the status of the grievance changes to **Pending with User**, but there is no response from the operator for a specified period.

To raise a grievance

3. Select **Grievance Management** in the left panel.

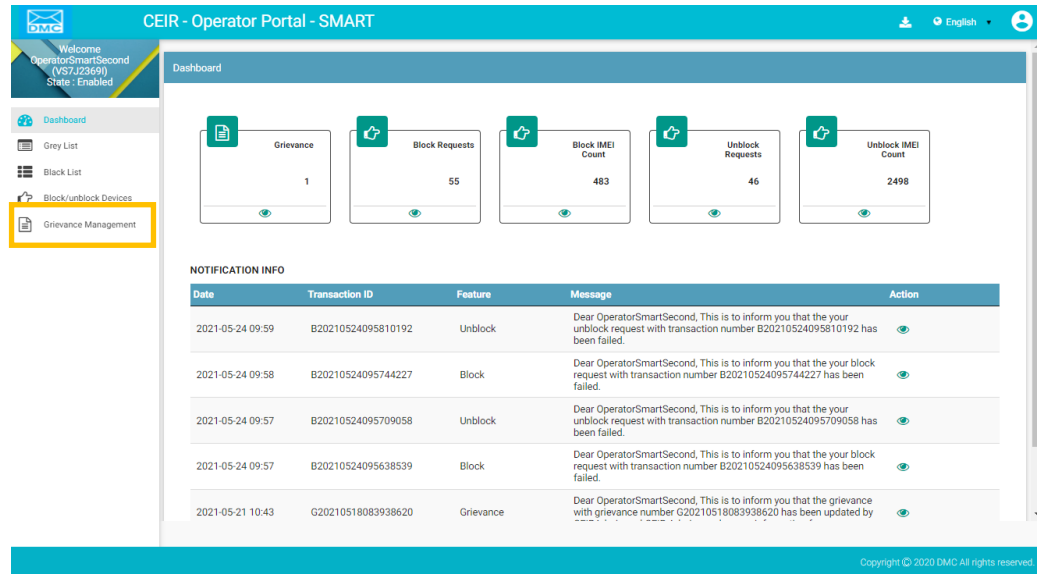

Figure 49: Home Page

4. The **Grievance Management** page appears. Click **Report Grievance**.

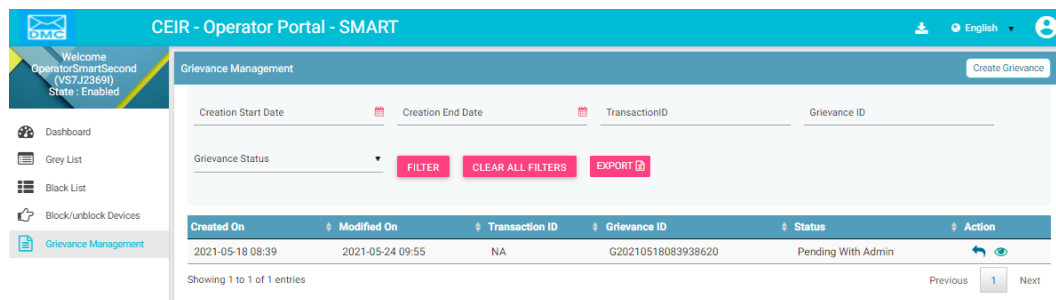

Figure 50: Grievance Management

The **Report Grievance** page appears.

TransactionID: _____ Category: Block/Unblock Related

Document Type: Select Document Type

Upload Supporting Document:

Remarks: Unable to block devices

Required Field are marked with *

Figure 51: Report Grievance

5. Enter the following information:

- a. **Transaction ID:** Enter the transaction ID of the block/unblock request if the grievance is related to blocking/unblocking or the ID of the grey ID list if related to the grey list or the ID of the blacklist if related to blacklist.
- b. ***Category:** Select the category of the grievance. The options are:
 - Block/Unblock Related
 - Greylist Related
 - Blacklist Related
 - Other
- c. **Document Type:** Select the type of identification or another document that is to be uploaded.
- d. **Upload Supporting Document:** Click **Select File** to upload the document selected in **Document Type**.
- e. To upload more documents, click **+Add More Files**.

This adds two more fields: **Document Type** and **Select File**.

- f. ***Remarks:** Enter information about the grievance raised. This helps the administrator to understand the problem in detail.

6. Click **SUBMIT**.

A grievance ID is generated and assigned to the registered grievance. The registered grievance appears on top of the dashboard.

Submit Grievance Report

Your grievance report has been successfully submitted. Your Grievance Id is (G20200311090008702)
(Note: Please remember your grievance Id. This is used for future reference)

OK

The new grievance appears on the top of the page.

Figure 52: Grievance Management

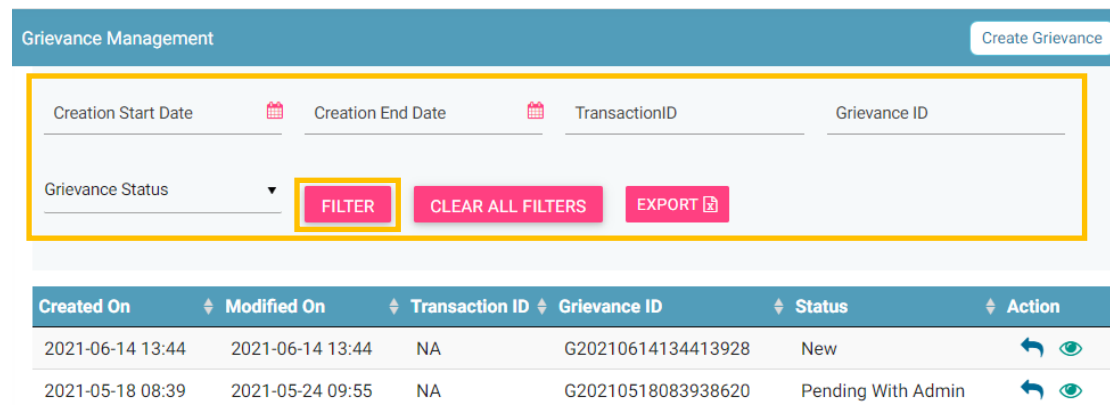

For each grievance added, the following information is displayed on the page.

Column	Description
Raised Date	Date of raising a grievance.
Last Update Date	The date when the grievance was modified.
Transaction ID	The transaction ID of request for which a grievance was raised.
Grievance ID	This is the ID that is automatically assigned to the grievance.
Grievance Status	<p>The uploaded grievance goes through different status modes.</p> <ul style="list-style-type: none">• New: When a grievance is raised.• Pending with CEIR Administrator: When a response is awaited from the CEIR administrator.• Pending with User: When a response is awaited from the operator.• Closed: When the CEIR administrator closes the grievance.
Action	<p>This displays different actions that can be performed on a grievance.</p> <ul style="list-style-type: none">• Reply : This is used to respond to the grievance. The response is given by the CEIR administrator or operator. The exchange of responses is done until the grievance is closed.• View : This is used to view the grievance response history. The operator can see all the responses exchanged for any grievance.

2.19 Filter Grievances

The operator can view selective grievances depending on specific filter values. For example, the operator can view only those grievances that are pending with the CEIR administrator. Similarly, one can view only those grievances that are closed.

To filter grievances:

The screenshot shows the 'Grievance Management' interface. At the top, there is a 'Create Grievance' button. Below it, a filter section is highlighted with a yellow border. This section includes input fields for 'Creation Start Date', 'Creation End Date', 'TransactionID', and 'Grievance ID'. There is also a 'Grievance Status' dropdown menu. Below these fields are three buttons: 'FILTER' (highlighted with a yellow border), 'CLEAR ALL FILTERS', and 'EXPORT' (with a download icon). Below the filter section is a table with the following data:

Created On	Modified On	Transaction ID	Grievance ID	Status	Action
2021-06-14 13:44	2021-06-14 13:44	NA	G20210614134413928	New	 
2021-05-18 08:39	2021-05-24 09:55	NA	G20210518083938620	Pending With Admin	 

Figure 53: Filter Grievances

3. Specify the required value in one or more of the fields listed:
 - **Start Date** and **End Date**: Period of raising grievances.
 - **Transaction ID**: This is the ID of the transaction for which the grievance is raised.
 - **Grievance ID**: This is the ID assigned to the grievance.
 - **Grievance Status**: The status can be:
 - New
 - Pending with CEIR Administrator
 - Pending with User
 - Closed
4. Click **Filter**.

The filtered grievances are shown on the page.
